wood flooring

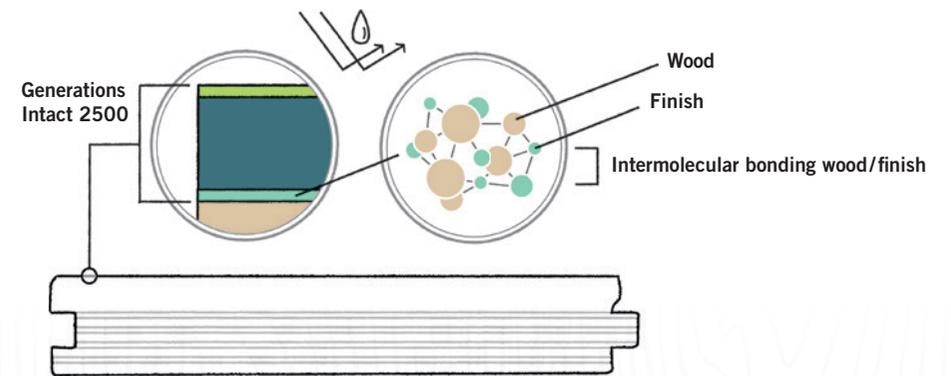

With Generations Intact 2500, you now have the freedom to create commercial spaces that feature the richness and warmth of wood, without sacrificing durability.

Generations Intact 2500 withstands even the harshest elements: salt, water, snow, sand - nothing damages this resistant commercial finish or tarnishes the beauty of the shine, colours and textures Mercier is renowned for.

Create without compromise with a product that will stand the test of time.

## HYDROPHOBIC FINISH THE MOLECULAR BARRIER

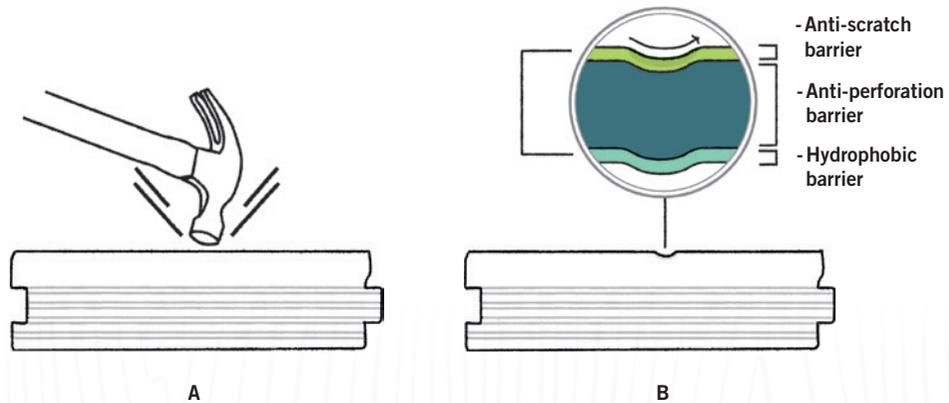

The molecules in the Generations Intact 2500 finish interlock with the wood cells, creating a waterproof barrier for unmatched protection from the elements. As a result, the finish does not come off or fade.

# COMMERCIAL DURABILITY

## FLEXIBILITY

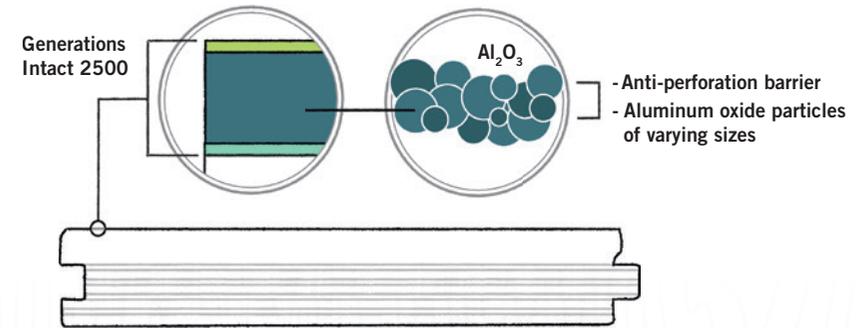

Generations Intact 2500 protects floor surfaces thanks to aluminum oxide particles of varying sizes. The multilayered composition makes this finish more flexible and impact resistant.

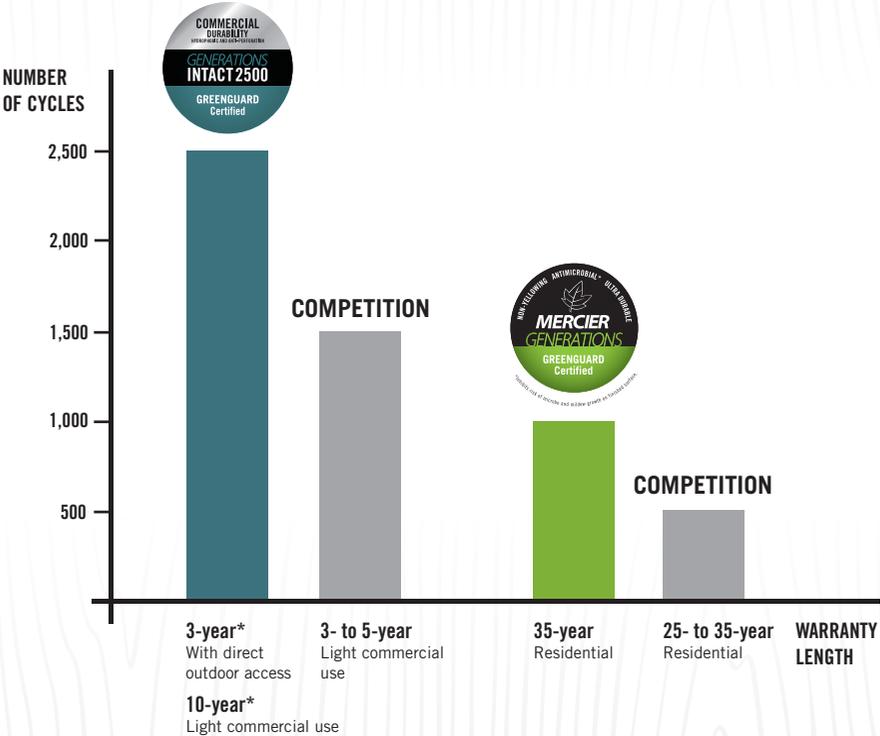

# COMMERCIAL DURABILITY

## ANTI-PERFORATION

This superior commercial durability is reinforced by an anti-perforation finish that stands up to 2500 cycles of the TABER sandpaper test.

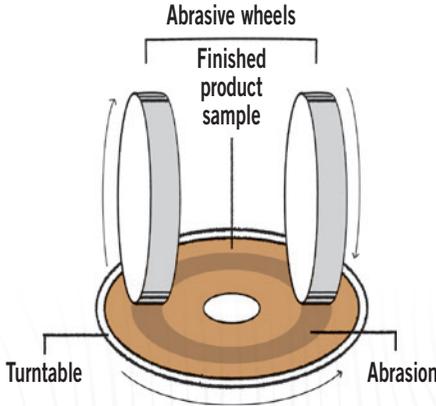

# TABER COMPARATIVE GRAPH

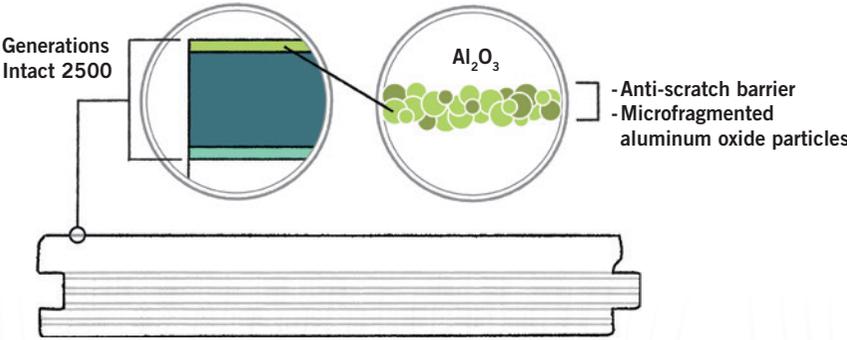

# THE TABER TEST

The TABER test involves mounting a portion of a finished board onto a turntable fitted with sheets of abrasive paper. The degree of resistance is evaluated based on the number of rotations it takes to completely wear down the finish. The higher the number of cycles, the more resistant the finish. Generations Intact 2500 resists 2500 TABER test cycles, making it the most resistant finish in the industry.

# SCRATCH-RESISTANT FINISH

The top layer of Generations Intact 2500 is packed with micro-fragmented aluminum particles. This creates a multipoint contact surface that is much more resistant to the scratches caused by the frequent traffic in commercial spaces.

# AVAILABLE PRODUCT

# THE BEST WARRANTIED COMMERCIAL FINISH

---

Even in high-traffic areas, Generations Intact 2500 is the only finish to come with a 3-year commercial warranty on surfaces with direct outdoor access and a 10-year warranty for light commercial projects.

For use with direct outdoor access

For light commercial use

# LOW MAINTENANCE

---

Floors treated with Generations Intact 2500 are so low maintenance, you can clean them with just soap and water.

They are antimicrobial, reducing the risk of bacteria and mould infecting the surface of the finish. They are also armed with a protective shield against yellowing and discolouration. Finally, they are GREENGUARD GOLD-certified, meaning you'll enjoy the cleanest, most ecofriendly and nontoxic floor available.

ANTIMICROBIAL

MAINTENANCE

NON-YELLOWING

**COMMERCIAL GLOSS**

This limited reflection gloss minimizes the appearance of surface marks and allows for optimal maintenance.
